- The hospital is accredited for 12 months of core training. It now offers 6 months ICU Critical Care, as well as 6 months Core-General Medicine. The ATC is pleased to see that the new training role in ICU is in conjunction with the Albury Base Hospital, allowing for training beyond 6 months.
- The site is accredited for 6 months Core General Medicine, 6 months Group A (Acute) and 12 months of non-core training. There may be consideration for a further general medicine/cardiology position, eligible for 6 months general medicine related approval.
- The hospital is accredited for 6 months of Core General Medicine training 6 months of non-core training.
- An individual trainee can consider up to 6 months of core training at the site. This core training will be considered a Group C core training rotation.
- The hospital is accredited for rotations in Core General Medicine, Core Group A (Acute) and Core Group B subspecialty, to a maximum of 36 months.
- A trainee may undertake a maximum of core training such as 6 months Group A (Acute Care) at this site. Any additional training may be considered towards non-core training upon review of a trainee’s Application for Approval of Training Form. In addition, a further 2 Advanced Trainees may undertake the following:
  1. 6 months core-General Medicine
  2. 6 months Group B core training
- The hospital is accredited for rotations in 6 months Group B (Obstetric Medicine or core General Medicine) subspecialty and 6 months non-core training for a maximum of one Advanced Trainee completing Obstetric Medicine.
- This site is accredited for a Group A rotation. This hospital is part of a network with the Calvary Mater Hospital where the subspecialty and core General Medicine rotations are available for trainees. A further 6 months could be completed as non-core training at the site.

</table>

The hospital is accredited for 6 months Core General Medicine and 6 months non-core rotations only, maximum 12 months. The ATC recommends that this would be suitable as a 6 month rotation within a training network.

This site is accredited for 6 months Core General Medicine, 6 months General Medicine Related Rotations (senior medical registrar), 12 months core subspecialty (cardiology, nephrology, respiratory and stroke) and 12 months of non-core training. Additional subspecialties may be considered on a case-by-case basis.

This site is accredited for 6 months core General Medicine, 6 months Group A (ICU or acute type specialty) 6 months Core Subspeciality and 12 months of non-core training. (will be considered based on the rotation details of the trainee application).

The hospital is accredited for Core General Medicine, Group A, Group B (Geriatrics, Infectious Diseases and Cardiology) Group C (Endocrinology) with the proviso that trainees are expected to complete at least one Group B rotation which is in a genuine subspecialty during their training program. If the trainee secures a Geriatric Medicine rotation, the ATC may consider Group B approval of additional subspecialty rotations.

The hospital is accredited for a maximum of 36 months of advanced training rotations in Core General Medicine, Group A (Acute Care), Group B and Group C rotations.

The hospital is accredited for rotations in Core General Medicine, Core Group A (Acute Care), Core Group B subspecialty (Nephrology), Core Group C subspecialty. The ATC strongly recommends that Advanced Trainees spend at least 6 months at sites external to the Austin facility.

This site is accredited for 6 months Core General Medicine, 6 Months core Group A, 6 months Core Group B, 6 months core Group C. A trainee may undertake a total of 24 months of core-training towards General and Acute Care Medicine to be assessed by the ATC via a trainee’s Application for Approval of Training Form. A further 12 months of non-core training may be completed.

A trainee may complete 24 months core training in General Medicine.

Overseas Training Sites
Trainees applying for overseas training must submit evidence related to supervision and training to ensure the placement is relevant to gain competencies required by the curriculum. Core training will only be certified in places where the training experience is similar to that of Australia or New Zealand.

Applications for overseas training must be submitted at least six months in advance. To support the application the following information must be submitted:

- Two supervisors – one local (onsite) and one with FRACP
- Position description and roster
- Evidence that the site is accredited for paediatric training
- Detailed information on the training experience, education program and relevance of training.
