ACEM Accredited Emergency Departments

17/03/2026

Emergency Departments are accredited by ACEM for 12, 24 or 36 months core ED Training.

This list outlines the Delineation of Emergency Departments and whether the ED is approved for the paediatric requirement (PLB/PER).

Abbreviations:

DEMT = Director of Emergency Medicine Training

PLB = Minimum Paediatric Requirement (Paediatric Logbook)

PER = Paediatric Emergency Requirement

TS4 = Training Stage 4

*Previous Delineation

For trainees who commenced training prior to 2022 and/or are completing the FACEM Training Program under Regulation B, training completed at paediatric and private emergency departments may contribute towards your MR/Non-MR requirements as relevant.

**Provisional Accreditation

Provisionally Accredited Sites are sites that have been granted Provisional Accreditation under AC549 standards. These sites are yet to be inspected by the Accreditation Inspectors for ongoing full accreditation status. Once a trainee has been appointed to a Provisionally Accredited site, the site will be inspected towards the end of the trainee's placement to determine if it meets the requirements for ongoing accreditation.

***Accredited for TS4" – A Blank in this column indicates the site has yet to apply for TS4 accreditation. Please check directly with the site to confirm".
