Accredited Sites for Advanced Training
Cardiology JUNE 2026

Core Training in Cardiology can only be undertaken in an accredited training setting.
Applicants are advised that the position applied for must be appropriate within these settings for Core Training to be approved.

This document is updated regularly. For any questions about training settings/positions accredited for Cardiology Advanced Training, please contact Training Accreditation Services via accreditation@racp.edu.au.

Training time/professional experience requirements for the Cardiology Advanced Training program are outlined in the training program handbook. Trainees should refer to the handbook that corresponds to the year in which they entered the program, for guidance on their training requirements, including rules around what types of training must be undertaken in accredited positions, and training time certification limits on different types of training. For any questions about training time requirements, please contact Training Services via endocrinology@racp.edu.au.
