Overseas Training Sites

Trainees applying for overseas training must submit evidence related to supervision and training to ensure the placement is relevant to gain competencies required by the curriculum. Core training will only be certified in places where the training experience is similar to that of Australia or New Zealand. Overseas training will be certified for a maximum of 6 months of Core Training. A further 6 months may be considered for non-core Training.

Applications for overseas training must be submitted at least six months in advance. To support the application the following information must be submitted:

- Two supervisors – one local (onsite) and one with FRACP
- Position description and roster
- Evidence that the site is accredited for paediatric training
- Detailed information on the training experience, education program and relevance of training.

Key to Accreditation Status

Accredited	• has previously been accredited • compliant with Standards • may have one or more recommendations
Conditional	• has previously been accredited • is substantially compliant with the standards • has one or more conditions • may have one or more recommendations
Provisional	• when first time accredited (or unaccredited for a period) • compliant with Standards • may potentially have one or more recommendation
