

Important information:

- Core Training in Rheumatology can only be undertaken in an accredited training setting. Applicants are advised that the position applied for must be appropriate within these settings for Core Training to be approved.
- Overseas training sites must be prospectively approved by the Advanced Training Committee (ATC) in Rheumatology to provide core training, in line with the accreditation process outlined in the Criteria for the Accreditation of Rheumatology Core Training Settings. For enquiries about overseas training, please contact Training Services via rheumatology@racp.edu.au.
- This document is updated regularly. For any questions about training settings/positions accredited for Rheumatology Advanced Training, please contact Training Accreditation Services via accreditation@racp.edu.au.
- Training time/professional experience requirements for Rheumatology Advanced Training are outlined in the training program [handbook](#). Trainees should refer to the handbook that corresponds to the year in which they entered the program for guidance on their training requirements, including location of training requirements. For any questions about training time requirements, please contact Training Services via rheumatology@racp.edu.au.
