

Accredited Sites for Advanced Training

General and Acute Care Medicine July 2026

PLEASE NOTE:

- This document is updated regularly. For any questions about a setting and/or position accredited for General and Acute Care Medicine Advanced Training, please contact Training Accreditation Services via accreditation@racp.org.nz.
- Training time/professional experience requirements for the General and Acute Care Medicine Advanced Training program are outlined in the training program [handbook](#). Trainees should refer to the handbook that corresponds to the year in which they entered the program, for guidance on their training requirements, including rules around what types of training must be undertaken in accredited positions, and training time certification limits on different types of training. For any questions about training time requirements, please contact Training Services via GeneralMedicine@racp.org.nz.

Overseas Training

Trainees applying for overseas training must submit evidence related to supervision and training to ensure the placement is relevant to gain competencies required by the curriculum. Core training will only be certified in places where the training experience is similar to that of Australia or New Zealand.

Applications for overseas training must be submitted at least six months in advance. To support the application the following information must be submitted:

- Two supervisors (approved by the Committee).
- Position description and roster.
- Evidence that the site is accredited for General and Acute Care Medicine training.
- Detailed information on the training experience, education program and relevance of training.
