Overseas Training Sites

Trainees applying for overseas training must submit evidence related to supervision and training to ensure the placement is relevant to gain competencies required by the curriculum. Core training will only be certified in places where the training experience is similar to that of Australia or New Zealand.

Applications for overseas training must be submitted at least six months in advance. To support the application the following information must be submitted:

- Two supervisors (approved by the Committee)
- Position description and roster.
- Evidence that the site is accredited for Geriatric Medicine training.
- Detailed information on the training experience, education program and relevance of training.
