

Australasian Chapter of Addiction Medicine Observed Patient Interview Assessment Sheet

Name of Trainee	Date
Name of Assessor	Venue

For each item please indicate whether the trainee's performance was Satisfactory $(\sqrt{})$, Unsatisfactory (X) or Uncertain (?).

COMMUNICATION WITH PATIENT	Satisfactory	Unsatisfactory	Uncertain	Not Applicable
Establishes appropriate rapport				
Warm, friendly opening				
Puts patients at ease				
Non-judgmental attitude				
Empathic towards patient's situation				
Shows appropriate non verbal behaviour				
Appropriate eye contact				
Appears interested and focussed on patient				
Not intrusive of patient's personal space				
Use of appropriate language				
Understandable vocabulary				
Avoids use of medical jargon				
Avoids confronting language				
Appropriate use of open-ended questions				
Uses open-ended questions to explore patient's				
history				
Astinalistania abilia				
Active listening skills				
Demonstrates active listening skills eg use of				
paraphrasing, clarifying, and summarising				
Style of history taking				
Uses logical and structured approach				
OSES IUGICAI AIIU SIIUCIUIEU APPIUACII				

History of presenting complaint Explores quantity, frequency, duration, last use of substance/s Explores route of use, risk-taking behaviours Explores source and cost of substance/s used Explores problems related to use Explores problems related to use Explores precipitants for presentation Explores relevant past use: - e.g. heaviest period of use; first use Explores relevant treatment history Other drug and alcohol history Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores history of anxiety, depression, psychosis Explores past admissions Explores previous treatments	HISTORY TAKING	Satisfactory	Unsatisfactory	Uncertain	Not Applicable
substance/s Explores route of use, risk-taking behaviours Explores source and cost of substance/s used Explores problems related to use Explores dependence criteria Explores relevant past use: - e.g. heaviest period of use; first use Explores relevant treatment history Other drug and alcohol history Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores history of seizures and head injuries Explores other relevant medication Reviews current medication Explores history of anxiety, depression, psychosis Explores past admissions	History of presenting complaint				
Explores source and cost of substance/s used Explores problems related to use Explores dependence criteria Explores precipitants for presentation Explores relevant past use: - e.g. heaviest period of use; first use Explores relevant treatment history Other drug and alcohol history Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores history of anxiety, depression, psychosis Explores past admissions	substance/s				
Explores problems related to use Explores dependence criteria Explores precipitants for presentation Explores relevant past use: - e.g. heaviest period of use; first use Explores relevant treatment history Other drug and alcohol history Explores relevant history for: - Alcohol - Opicids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores past admissions					
Explores dependence criteria Explores precipitants for presentation Explores relevant past use: - e.g. heaviest period of use; first use Explores relevant treatment history Other drug and alcohol history Explores relevant history for: - Alcohol - Opicids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores past admissions					
Explores precipitants for presentation Explores relevant past use: - e.g. heaviest period of use; first use Explores relevant treatment history Other drug and alcohol history Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of self harm, suicidality Explores past admissions					
Explores relevant past use: - e.g. heaviest period of use; first use Explores relevant treatment history Other drug and alcohol history Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of self harm, suicidality Explores past admissions					
- e.g. heaviest period of use; first use Explores relevant treatment history Other drug and alcohol history Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of self harm, suicidality Explores past admissions					
Explores relevant treatment history Other drug and alcohol history Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of self harm, suicidality Explores past admissions					
Other drug and alcohol history Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of self harm, suicidality Explores past admissions					
Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of self harm, suicidality Explores past admissions	Explores relevant treatment history				
Explores relevant history for: - Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of self harm, suicidality Explores past admissions	Other drug and alcohol history				
- Alcohol - Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores past admissions					
- Opioids - Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores past admissions					
- Benzodiazepines - Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores past admissions					
- Marijuana - Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores past admissions					
- Stimulants - Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores past admissions					
- Ecstasy and Related Drugs - Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions					
- Nicotine - Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions					
- Other substances Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions	,				
Medical history Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions					
Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions	Other Substances				
Explores Hepatitis & HIV status Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions	Medical history				
Explores history of seizures and head injuries Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions					
Explores other relevant medical history Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions					
Medication Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions					
Reviews current medication Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions	ZAPIGIGG GAIGH FORWARK INCOMES HISTORY				
Explores previous relevant medication Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions	Medication				
Past Psychiatric History Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions	Reviews current medication				
Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions	Explores previous relevant medication				
Explores history of anxiety, depression, psychosis Explores history of self harm, suicidality Explores past admissions	Paet Peychiatric History				
Explores history of self harm, suicidality Explores past admissions					
Explores past admissions					
Explores previous treatments					
	Explores previous treatments				

HISTORY TAKING CONT'D	Satisfactory	Unsatisfactory	Uncertain	Not Applicable
Criminal history				
Explores history of violence				
Explores history of convictions & current charges				
Explores history of imprisonment				
Family and Social History				
Explores family history: medical, psychiatric,				
addiction				
Explores family structure and nature of relationships				
Explores experience of growing up				
Explores education, training and employment				
Explores social relationships and supports				

EXAMINATION	Satisfactory	Unsatisfactory	Uncertain	Not Applicable
Mental state examination				
Explores important mental state features eg anxiety, depression, psychosis, cognitive impairment				
Identifies important risk issues (risk of harm to self or others)				
Physical examination				
Performs appropriate physical examination				
If not possible: able to discuss appropriate physical examination				

TREATMENT PLAN	Satisfactory	Unsatisfactory	Uncertain	Not Applicable
Explores motivation for change				
Able to give personalised feedback				
Able to discuss broad range of treatment options (biological, social, psychological)				
Involves patient in treatment decisions				

ASSESSOR'S SUMMARY:					
Satisfactory Communication	YES NO UNCERTAIN				
Satisfactory History Taking	YES NO UNCERTAIN				
Satisfactory Examination	YES NO UNCERTAIN				
Satisfactory Treatment Plan	YES NO UNCERTAIN				
COMMENTS:					
My general impression of the trainee was that their performance was: SATISFACTORY UNSATISFACTORY UNCERTAIN
