

KI UTA, KI TAI

FROM THE MOUNTAINS TO THE SEA

RACP
Specialists. Together
EDUCATE ADVOCATE INNOVATE

Ki uta ki tai: From the mountains to the sea: The trainee journey is represented as an awa (river) acknowledging that no trainee journey is the same or taken in isolation. It acknowledges the importance of mana (prestige) in diversity of training, with multiple pathways to fellowship. The central pattern in the awa is inspired by the raparapa (carved ends of the bargeboards) and maihi (bargeboards on a wharenui or meeting house), symbolising outstretched hands and manaakitanga (hospitality). This represents the collective support from RACP during training as well as the importance of fostering whakawhanaungatanga (relationships) among Māori trainees and fellows. Like an awa some parts are more difficult to navigate, depicted as rapids, but with support and personal growth, a calmness will prevail into the tai (sea) to achieve fellowship.
