Supervisor(s):	

Supervisor Declaration

Please tick to indicate that you agree with the following.

I declare that:

- This assessment is an accurate reflection of work completed by the advanced trainee
- The trainee is competent in the management of HIV Medicine
- The trainee is competent in the management of Reproductive Health

Please provide any additional feedback on your trainee's logbook:

Signature of supervisor:	Date:
Signature of trainee:	Date:

Please submit to the Training Committee in your final year of advanced training i.e. 36 months of clinical training has been completed.

Purpose of the Logbook

A Logbook of cases should be kept by each trainee during the Sexual Health Medicine advanced training program. The purpose of the Logbook is not just to list the HIV Medicine and/or Reproductive cases seen during the program but for the trainee to reflect on the learning that has gone on and provide details of the learning experience.

The Logbook is primarily to be used as a source for discussion with the supervisor(s).

Logbook cases should also demonstrate recognition of when it is appropriate to refer cases to other disciplines for other forms of treatment.

The Logbook should demonstrate adequate exposure to clinical cases. It is recommended that the trainee reviews a wide variety of different experiences. The cases should demonstrate exposure to a range of issues, diagnoses, symptoms, and clinical settings.

Over the course of training, trainees are required to complete:

- 1 x HIV medicine logbook*
- 1 x Reproductive Health logbook
- 1 x Logbook for any 6-month elective undertaken (recommended)

*Complex Pre-exposure Prophylaxis (PrEP) cases are required to be included in the HIV medicine logbook. A minimum of 1 and maximum of 5 can be included.

A minimum of 50 cases are to be recorded per logbook.

Please refer to the [PREP Handbook](#) and [Stand Alone Formal Study list](#).

Please photocopy these templates if you require further pages.

Submit your completed logbook to: shmedtraining@racp.edu.au
